

Ideation Phase

Brainstorm & Idea Prioritization

Date	06 January 2026
Team ID	
Project Name	Car Rental Request Automation in ServiceNow Using Service Catalog and Workflows.
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

The brainstorming template specifically describes brainstorming as generating ideas freely and then prioritizing them, so this grouping and ranking fits the structure of the provided template.

Step 1 — Select the Problem Statement

Selected Problem Statement:

Customers need a simple and efficient way to request rental cars, provide trip details, receive approval, and track their request without delays or manual follow-up.

Step-2: Brainstorm, Idea Listing and Grouping

Request submission

- Create a Service Catalog item for the car rental request.
- Collect Requested Date, Pickup Location, Drop Location, Duration, Car Type, and Reason.

Approval

- Add an approval step for the Requested Item.
- Continue the fulfillment process when the request is approved.

Fulfillment

- Create a Catalog Task for an approved request.
- Assign the task to the configured fulfillment/ITSM group.

Communication

- Send an email notification as part of the flow.
- Keep the requester informed about the request process.

Exception handling

- Use a Business Rule to create an Incident when the configured unavailable condition is reached

Step 3 — Idea Prioritization

For the prioritization section, rank them like this:

Priority	Idea
1 – High	Automated approval process
2 – High	Online car rental request
3 – High	Automatic task assignment to Transport Team
4 – High	Request/RITM tracking
5 – Medium	Approval email notification
6 – Medium	Business Rule for unavailable cars
7 – Medium	Automatic record creation
8 – Low	Status updates
