Project Name	Car Rental Request Automation in ServiceNow Using Service Catalog and Workflows.
Maximum Marks	2 Marks

Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

Reference: <https://miro.com/templates/customer-problem-statement/>

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A customer who needs to rent a car for a trip	Request a car by providing the date, pickup location, drop location, duration, car type, and reason	The car rental request and approval process can be time-consuming and difficult to track	Manual processing may cause delays and lack of visibility into request status	Uncertain about whether my request has been approved and processed
PS-2	A customer requesting a rental car	Get my car rental request approved and processed quickly	I may not receive immediate confirmation or know the progress of my request	The request, approval, task assignment, and notification processes are not always automated	Frustrated and unsure about the status of my car rental request
